

Thabelo Ramabulana

DevOps Engineer

Roodepoort, JHB | 060 958 0946 | Th9b310@gmail.com | <https://github.com/Thab310>

I am a self-taught DevOps engineer that is passionate about automating processes and building pipelines. At the "core" am a life-long learner that enjoys being at the forefront of cloud innovative technologies that simplify solutions. I love using my ever-growing skill set for building projects and finding best ways to explain cloud concept using simple illustrations that will resonate with people.
